Batches

+ Create batch

TOTAL BATCHES

0

All production runs recorded in the workspace.

DRAFT QUEUE

0

Draft batches can still be edited, produced, or deleted.

COMPLETED

0

Production runs already marked as completed.

STOCK DEDUCTED

0

Batches with material deductions already recorded.

⚠️ Batch workflow

Draft batches are your planning stage. Open a batch detail page to review material expansion, costs, and stock deduction before completion.

🔍 Search by batch code, formula, solvent, or status...
